Disclosure and Authorization

You understand by requesting the payment deferral that the current balance of the loan is extended by the amount of the payment deferred. You also understand that the interest will continue to accrue on your loan balance throughout the deferred payment period. If there is more than one borrower on a loan, the borrower and co-borrower must sign the form.

If you have recurring automatic transfers from other financial institutions for your loan payment(s), it is your responsibility to stop the transfer(s). Any fees assessed from your other financial institution for doing this will not be refunded by MEFCU. Skipping your payments does not affect your original GAP election at the time you funded your loan. Loans must be current to be eligible for deferral and all other accounts must be in good standing

NOTE: If you have set up scheduled or automatic payments on Online Banking or Bill Pay subject to MEFCU's prior approval of your eligibility to skip your next three monthly payments, you must personally stop the payment for the month selected and reinstate it once the payments have been skipped. Additional missed payments that result from your having failed to reinstate any automatic payments will be handled as a late payment.
